Beginners Madrasah Classes — Website Rebuild

Version: 3.0 | **Owner:** Aaniquah Dicks (Digital Pantry) | **Client:** Mualimah Rukeya | **Status:** Ready for Development

1. Product Vision

A premium, elegant Islamic education website for Beginners Madrasah Classes that reflects the dignity and warmth of the work Mualimah Rukeya does. Built from scratch with her confirmed branding and colours, it replaces her current Wix site with a faster, more beautiful, and fully custom platform.

The site gives every class its own dedicated page, allows students to register directly on the website via embedded Google Forms, and gives Mualimah Rukeya a clear view of all registrants per class through Google Sheets — all at no monthly cost.

North Star: A woman or revert finds Beginners Madrasah Classes online, feels immediately welcomed, understands exactly what's on offer, and registers for a class in under 3 minutes.

2. Design System

2.1 Visual Identity

Reference site structure: ibn-ataa-illah-institute.com **Approach:** Same elegant multi-page structure, rebuilt entirely in BMC's confirmed branding, colours and personality.

Aesthetic: Warm, modest, premium Islamic education. Feels like a sacred space online. The beautiful logo illustration — a teacher in hijab with two students reading Quran inside an Islamic arch with crescent and stars — sets the entire visual tone. Gold and deep green throughout. Cream background warmth.

Logo: Existing BMC logo illustration to be featured prominently in hero section and footer.

Tagline: "Foundations of Islamic Knowledge — EST 2024"
